

WIRELESS SLIDE GATE FLASHING LIGHTS

No Batteries ... No Solar Panels ... No Maintenance

PATENT PENDING

Custom kit with 4 LED array modules illustrated

ENHANCED AWARENESS AND SAFETY FOR SLIDE GATES

- *Vlite is the first and only wireless-powered warning light system designed for slide gates*
- *Wireless electromagnetic transfer of power eliminates the need for batteries, solar panels or retractable cables*
- *Installs directly on gate with flashing LED's, enhancing awareness & safety for slide gates with Vmag operators*

Specifications				
Dimensions:		L	W	H
	LED Array Module (2)	22"	2 1/2"	1 9/16"
	Transmitter w/bracket	6 1/16"	2 1/2"	4"
	Receiver w/bracket	6 1/16"	2 1/2"	3 1/2"
Electrical:	Input voltage	24VDC		
	Output voltage	12VDC		
	Circuit protection	GMA-2-R fuses (2)		
Operating Temperature:	-40° to 120°F [-40° to 49°C]			
Construction:	All fastening hardware stainless steel Control unit powder coated T-6061 aluminum Transmitter & receiver polycarbonate enclosure			
LED Arrays:	Water proof - IP67 rating Array housing material: ABS plastic
